Be Prepared To Save Your Pet's Life...They Would For You

Nobody likes to imagine the worst. So, it's very likely that Jeremy Jack from Bristol never thought that he would be called on to save his dog's life. Imagine his surprise when he found Chester, his 12-week-old miniature dachshund, in the swimming pool and not moving. He sprang into action using first aid training and was fortunately able to revive his treasured family member.

Our furry friends can be very curious and unfortunately, accidents do happen. So, just as it's important to provide food, attention & toys, it's also important to be able to help your pet in an emergency situation.

Our pet first aid course prepares you to take quick and confident action in an emergency and focuses on the most common pet-related accidents.

Course Curriculum

Introduction

- The vet and your role in first aid
- Keeping your pet safe in an emergency

Summary of Pet First Aid

- Traveling with your dog abroad
- Pet First Aid Kits
- Summary

Pet First Aid Courses With ProPetAid

We provide two formats for our pet first aid course. Pet owners can go to a local classroom course held by a ProTrainings instructor or learn online with our e-Learning course.

Keep your knowledge fresh

Each student has the ability to refresh their knowledge on the website and will receive update/ refresher videos to their e-mail weekly. This will keep acquired skills at the ready and is absolutely free as long as you have a valid Pet First Aid certificate.

Local Pet First Aid Courses

ProTrainings has a national network of pet first aid instructors. These instructors are specifically selected for their ability to teach and their passion for animals. In-person instruction allows you to ask questions, practice on a dog manikin in front of the instructor, and receive remediation from the instructor when necessary.

To attend a local pet first aid course simply look on the back of this leaflet for information about your local instructor or go to find an instructor near you www.ProPetFirstAid.co.uk/en/classrooms.

Online Pet First Aid Course

As with all of our e-Learning courses, ProPetFirstAid's online course offers flexibility, control and consistency to every student. The online pet first aid course is video-based and allows you to learn from a qualified instructor, at your pace, using any device, anywhere there is an internet connection. The online pet first aid course is updated regularly to include new topics and relevant training materials.

To sign up for the online pet first aid course, go to www.ProPetFirstAid.co.uk. Register, pay £24.95 + VAT and complete the course to receive your certificate of completion.

Certificates

ProPetFirstAid certificates are posted after the class or printable after completing the e-Learning course. Certificates are valid for three years. After that time, ProPet-FirstAid recommends pet owners refresh their skills and get the latest first aid updates.
